The members of the public service commission had a hearing appointed for Wednesday of this week here and on their arrival on the early train from White River Junction, and did not return till night. Tortured for 15 Years

by a cure-defying stomach trouble that baffled doctors and resisted all remedies he tried, John W. Modders of Moddersville, Mich., seemed doomed. He had to sell his farm and give up work. It's surely a grand remedy for stomach trouble." Just as good for the liver and kidneys. Every bottle guaranteed. Only 50c at the Red Cross Pharmacy.

The Unfortunate Part.

We have barred the germs, in spite of their squirms, and have slain the same in their lair;

We are after the fly with the baleful eye, and the 'skeeter must say its prayer;

We have purified wells and killed off smells that have risen unto the skies,

But in spite of our toil, and the water we boil, the public ups and dies.

We have swept the streets, screened fruits and meats, we have had milk pasteurized;

No bacillus thrives upon human lives which we've properly sterilized;

The insidious bug in the barber's mug we have given a rude surprise,

But what's the use!—some screw is loose—the public ups and dies.

In the days gone by no "swat the fly" was the usual summer sign;

But it somehow fell men lived as well—their lives were as yours and mine;

So something's wrong with the germ-friend's song—what it is we can't surmise;

But the truth remains that, in spite of our pains, the public ups and dies.
